

Tim Speed

Canadian Warplane Heritage Museum  
“The Lorenz and Enigma”

**Thursday November 14, 2024**

During WW2, Germany had two uncrackable coding machines used by the Army, Air Force and Navy. How did they work and how did the Bletchley Park cryptanalysts solve their secrets and develop “intelligent” machines to read the German codes!

Tim Speed has been a volunteer Tour Guide, Speaker and Educator at the Canadian Warplane Heritage Museum since 2010.

Tim first became involved with aviation as an Air Scout still wearing short pants! After obtaining a Business Degree and joining the British Overseas Airways Corporation (BOAC), he served as a Station Operations Officer in Dubai, Tokyo and Beirut.

GHS members – complimentary  
Non-members - \$10.00
